PROFILE SUMMARY

Experienced clinical data manager with 3.5 years of experience in end-to-end clinical data management. Proficient in EDC/IWRS systems, database development, eCRF/CRF design, data validation, query management, data cleaning, and database lock procedure. Proven ability to ensure data integrity, accuracy, consistency, and compliance with regulatory standards. Strong collaborator with excellent communication and problem-solving skills, committed to driving efficiency and compliance in fast-paced clinical environments. Seeking to leverage expertise in data management to contribute to successful clinical trials.

SKILLS SUMMARY

- **Clinical Data Management Tools (EDC/IWRS):** OpenClinica, Clinion, Octalsoft, Clindox
- **Data Handling & Operations:** CRF/eCRF Design, Database development & Management, Data Cleaning & Review, Discrepancy Management, Troubleshoot & Query Resolution, SAE reconciliation, Annotated CRF development, Database Lock & Freeze, eCRF screens, UAT, User Access Management, Statistical Analysis Support, Training, etc.
- **Standards & Guidelines:** CDISC (CDASH), ICH-GCP, HIPAA, GDPR, 21 CFR Part 11, Regulatory Compliance
- **Medical Coding:** MedDRA, WHO-DD
- **Documentation & Quality:** DMP, eCCG, URS, DVP, UAT scripts/logs, edit checks specifications, SOPs, SOP Adherence, Quality Assurance.
- **Microsoft Office Suite:** MS Outlook, MS Word, MS Excel, MS PowerPoint, MS Teams, SharePoint
- **Data Review & Analysis:** Pivot tables, VLOOKUP, Formulas, Conditional Formatting, Filters, Data Validation, study trackers, reconciliation logs, UAT/Testing logs, query aging reports, charts/graphs for trend analysis, data cleaning & discrepancy management, site/subject status listings.
- **Soft Skills:** Problem-Solving, Time Management, Cross-Functional Collaboration, Stakeholder Communication, Data Security & Confidentiality, Attention to Detail.

PROFESSIONAL EXPERIENCE

Executive-Clinical Data Management
Insignia Clinical Services Pvt. Ltd.

SEP 2023 to Present
New Delhi, India 110034

Key Responsibilities:

Study Start-up Phase:

- Oversee the design, implementation, and maintenance of the EDC database.
- Prepared and maintained documentation, including DMP, DVP, Study design specifications, eCRF competition guidelines, URS, IQ, PQ, and OQ.
- Design and review CRFs.
- Develop and create a validated Excel spreadsheet for data collection of paper CRF studies.
- Designed annotated CRFs in compliance with CDISC standards.
- Coordinate with EDC vendors for database design, configuration, requirements, and troubleshoot data discrepancies.
- Creation of test script and test log to test edit checks and to test database screen design and functionality for User Acceptance Testing (UAT)
- Provided data management training and support to sites and study teams throughout the trial.
- Prepared and updated SOPs for clinical data management in compliance with ICH-GCP and regulatory standards.

Study Conduct Phase:

- Managed and implemented EDC setup, site creation, permission assignment, and user access to ensure secure and efficient data handling in compliance with standards.
- Experienced in managing and operating multiple EDC/IWRS systems such as **Clinion**, **Octalsoft**, and **Clindox**.
- Conducted ongoing data review in the EDC to identify discrepancies, missing data, and protocol deviations.

- Perform data cleaning, including generation and resolution of data queries.
- Troubleshoot EDC system issues, data entry errors, and system glitches, collaborating with technical teams to ensure accurate and consistent data capture.
- Supported medical coding of AE and concomitant medications using MedDRA and WHO Drug dictionaries, and assisted with SAE reconciliation between clinical and safety databases.
- Collaborate and work with cross-functional teams, including CRAs, PMs, Medical Affairs, and biostatistics, throughout the trial lifecycle.
- Supported interim data deliverables such as listings, summaries, and datasets for DSMBs, safety reviews, and interim analyses.

Study Close-out Phase:

- Performed final data cleaning and query resolution, ensuring all discrepancies were addressed prior to database lock.
- Perform database lock and freeze activities, including DM review/lock, soft lock, and hard lock.
- Exported and conducted final review of standard reports, including SDV reports, query reports, Monitor Lock, PI Lock, and CRF status reports to ensure data readiness for database lock.
- Preparation of the study closure checklist and database lock form.
- Provide support for statistical analysis and data review activities.
- Document all data management activities and maintain comprehensive records (EDC Access/Revoke form, CR, SOPs, Training records, Dataset extraction form, etc.)

Clinical Data Analyst
Meril Life Sciences Pvt. Ltd.

OCT 2021 to MAR 2023
Ahmedabad, India 380015

Key Responsibilities:

Study Start-up Phase:

- Develop and prepare documents such as a Data Management Plan, Data Validation Plan, e-CRF completion guidelines, UAT Checklist, and annotated CRFs.
- Designing and developing CRFs to meet study protocol requirements.
- Provided the training to trial and site users to ensure effective use of EDC systems and compliance with study protocols.
- Skilled in **designing and configuring eCRFs** within EDC systems to ensure seamless data capture and compliance with study protocols.
- Perform **edit checks programming**, and testing in EDC systems to maintain data integrity and compliance with study requirements
- Conducted **UAT**, updated system configuration, and retested to ensure system functionality as per requirements.

Study Conduct Phase:

- Performed monthly data cleaning and data review to ensure accuracy, completeness, and alignment with protocol timelines.
- Identify, troubleshoot, and resolve data discrepancies and system issues to ensure high-quality and reliable data delivery.
- Experienced in working with EDC platforms, including **OpenClinica** and **Clindox**.
- Proficient in query management, handling queries in both EDC system environments and Excel.
- Collaborated with CRAs for timely resolution of data issues, tracker updates, and discrepancy follow-up.
- Managed data extraction and review of standard reports, audit trails, and study-specific data outputs.
- Prepared and updated study-specific reports, including trackers, pending data, and query aging reports.
- Assisted in interim analysis activities by delivering validated data and resolving critical queries in coordination with the Biostatistics team.
- Proficient in MS Office Suite for data analysis, documentation, and presentations

Study Close-out Phase:

- Performed final data review and cleaning activities to ensure database lock readiness and compliance with study requirements.
- Reviewed operational reports (e.g., SDV, queries, CRF status, and lock status) to ensure data readiness for database lock.
- Preparation of database lock checklists.
- Manage database lock and freeze processes, ensuring timely completion and adherence to study milestones.
- Maintained data management records such as EDC access revoke forms, training records, SOPs, Feedback ticketing records, etc.

Key Responsibilities:

- Certify line clearance for various activities as per SOPs.
- Dispensing of RM & PM for batch manufacturing.
- To perform IPQA activities in every stage of manufacturing and packing.
- Check and verify the process control parameter during the manufacturing and packing of pharmaceutical products.
- Carry out sampling of Bulk, Semi-Finished, and Finished products as per SOPs.
- Daily verification of environmental monitoring.
- Daily verification of weighing balance calibration activity.
- Issuance of Batch manufacturing records & Batch Packing Records, and other critical and non-critical documents.
- Review of production records and finished goods verification.
- Review of Batch manufacturing records, batch Packing records & logbooks.
- Handling of logbooks as per SOPs.
- Collection of control samples, stability, and customer samples.
- Preparation of SOPs.
- Review & execution of PQ, IQ, OQ protocol.
- Preparation and review of PPQ protocols & reports.
- Involved in validation activities.
- Preparation for APQR.
- Any job activity assigned by HOD roles and responsibilities.

Key Responsibilities:

- To check and record the Temperature, Relative Humidity, and Pressure differential on all stages of Production & Packing as per frequency.
- Responsible for ensuring line clearance before starting of new batch and performing IPQA operations at various stages on Production & Packing.
- Calibration of weighing balance.
- Line clearance of all stages of Production & Packing.
- In process checks on all stages of Production & Packing.
- To review the final BMR & BPR of the Product before the Batch is dispatched.
- Sampling of intermediate, semi-finished, and finished products at different stages of manufacturing.
- Review of Batch manufacturing records, batch Packing records & logbooks
- Ensure the monthly calibration of all the IPQA instruments, including daily verification of the balance.

ACADEMIC QUALIFICATIONS

- | | |
|--|--|
| ▪ M. Pharmacy (Pharmacology)
IKG Punjab Technical University | AUG 2019 to JUL 2021
Jalandhar, Punjab 144603 |
| ▪ B. Pharmacy
Himachal Pradesh Technical University | AUG 2015 to MAY 2019
Hamirpur, Himachal Pradesh 177001 |

RESEARCH WORK

- | | |
|---|-----------------------------|
| ▪ <i>In-vitro</i> evaluation of Tulsi Plant Species for Larvicidal Activity. | JAN 2019 to MAY 2019 |
| ▪ Pharmacological Evaluation of <i>In-vitro</i> and <i>In-vivo</i> Anti-urolithiatic Activity of Root Extract of <i>Saussurea costus</i> (Falc.) Lipsch. On Ethylene Glycol-Induced Urolithiasis in Rats. | SEP 2020 to AUG 2021 |
