Qualification	Board/University	Year	Percentage
Degree- B.E.(EIE)	R.M.D. Engineering college	2013-2017	81%
12 th Standard- HSC	Don Bosco Higher Secondary School	2013	92%
10 th Standard- SSLC	Jaigopal Garodia Government Higher Secondary School	2011	94%

Professional Experience:

Senior Clinical Database Programmer, Parexel International, Bengaluru, India.

Jan'2022 - Present

- Create, implement, and execute procedures to build and maintain database set-up for paper based and/or web based (EDC) clinical data management systems (CDMS) in standard format or CDISC compliant format as required, including the annotation of CRFs where applicable.
- Create, implement, and maintain consistency checks in standard or CDISC format for database builds in CDMS and EDC, following and understanding internal and external regulatory requirements.
- Performing both start-up and amendment activities as the lead programmer.
- Accountable for first time quality on all deliverables.

- Provide feedback for study programmers on the creation of eCRF's following SOPs and internal process guidelines.
- Assist in providing technical solutions to internal or external client enquires.
- Develop wider knowledge of areas of Clinical Data Management Systems (CDMS), Electronic Data Capture (EDC), Clinical Trial Management System (CTMS), Safety Reporting and other programming language usage and processes within the GDO area.
- Maintain all supporting documentation for studies in accordance with SOPs/Guidelines/Work Instructions to ensure traceability and regulatory compliance. This includes the documentation of any deviations and dissemination of these to the rest of the project teams.
- Performing technical data management practices such as developing programs, validation plans, testing, and documentation in Medidata Rave activities.
- Maintain technical documentation that is applicable to the Clinical Database.
- Participate in the creation of standards, either through tools, libraries, or processes, as required for GDO to ensure efficient, effective, and optimal processes.
- I recommend sponsoring study activities that meet their requirements based on my knowledge of ICH-GCP and GDPR/HIPPA.

Clinical Data Programmer, Icon Clinical Research Organization, Chennai, India

Aug'2019 - Jan'2022

- Serves as DB Programmer lead on study specific database design/build activities.
- Review of eCRF Design specification.
- eCRF Design, Folder, Matrix build.
- Review of Validation specifications.
- Configuring edit checks as per the requirements.
- Perform production migration.
- Work on post-production updates.
- Conduct knowledge transfer sessions for new joiners in the project team.
- Reviews designs for compliance/feasibility within the DB system and consistency with any current standards and/or sponsor specifications and discusses with study team on a regular basis during initial study setup to ensure effective communication and accuracy in design.
- Updates annotations and production databases where required based on protocol amendments or other changes to trial designs within agreed timelines.
- I have also work in the 10 DATATRAK studies and built eCRF design, Checks and Script and dynamics.

EDC System Analyst, Cognizant Technology Solution, Chennai, India.

Jan'2018 - Aug'2019

- Trained in C#, Basic of SQL and Medidata RAVE.
- Worked as RAVE programmer for study build activities using Medidata RAVE.
- Analysing the rave issues and solving study related tickets in PROD environment.
- Review of eCRF Design specification.
- Built eCRF forms with the necessary Fields, Triggers, Dictionaries, Unit dictionaries, Derivations, Matrices, Edit checks, Custom function, Folders based on the Data Analyst's Specification with a very high productivity, excellent adherence to tight deadlines (milestones) and an accuracy of over 99%
- Configuring edit checks as per the requirements.
- Perform production migration.
- Work on post-production updates.
- The job also involved Constant interaction with the client, to seek clarifications to provide the best possible output for studies (clinical trials) that were undertaken. Additional responsibilities involved updating the Weekly Status Report for the members of my team.

ACHIEVEMENTS

Cognizant, Chennai

- Successfully build the study with the accuracy above 99.90%.
- Selected as a best associate of one quarter in my project.
- Delivered critical study at stringent timelines.

Icon plc, Chennai

- Got appreciation from client for delivering the complex study within stringent timelines.
- Got Icon inspire award twice in a year.

Parexel International

- Got appreciation from Client for working and delivering 2 studies parallelly.
- Got special points from my manager.

SKILL SET

Technical

- Trained in Medidata RAVE and DATATRAK
- Programming Languages / Web based Technologies: SQL, C, C++&C#.
- Tools / Software: MS Office, Microprocessor, Microcontroller.

Non-Technical

- Self-motivated, Willingness to learn and know more, can work in a team.
- .

TRAINING COURSES & WORKSHOP ATTENDED

- C & C++ course in Infosys campus connect in RMD Engineering college.
- Attended IMAGE PROCESSING workshop conducted by EUPRAXIA, at SSN College of Engineering.

PROJECT

- Digital Security System using GSM.
- Smart Parking System using IOT.

CERTIFICATIONS

- MEDIDATE RAVE Certified Study Builder
- Infosys Campus Connect Certificate for C, C++&Java.
- Business English Council (BEC) level B1.

CO-/EXTRA CURRICULAR ACTIVITIES

- Attended EUPRAXIA National Level Technical Symposiums conducted in various colleges
- Completed NPTEL Course Industrial Automation and Control.
- Participated in Intra Department Project Display Contest.
