PROFILE

Detail-oriented Rave database Programmer with a cumulative experience spanning 4+ years, including 3.7 years of specialized expertise in Medidata Rave programming for clinical trials. Skilled in designing electronic case report forms (eCRFs) and configuring databases. Seeking to apply technical expertise in Rave database and contribute to the success of clinical trials through technical solutions.

PROFESSIONAL EXPERIENCE

Database Management Analyst – IQVIA

Aug 2025 - Present

- Design, Develop, Implement, Maintain and Support clinical database systems.
- Support clinical database setup and Edit Checks programming with targeted timelines.
- Build, test, and document study requirement as per protocol and clinical validation policies.
- Perform test migration and production migration using Amendment Manager (Medidata Rave).
- Handled post-production and Quick Publish updates in Medidata RAVE to implement timely and compliant study changes.
- Streamlined study process by using Quick Publish in Medidata RAVE for real time updates and issue resolution
- Communicate with the DM and clients for smoother requirement understanding.
- Handled multiple client studies at the same time and ensured good quality in all studies.
- Build study, Program edit checks, custom functions testing, and handle migrations.
- Conducted training sessions for new hires on internal tools and systems.
- Experienced in using TrialGrid for study configuration and data management activities.
- Hands-on experience in using TrialGrid to perform Rave study import, export, and merge activities as part of clinical study setup and configuration.
- Ensures high quality deliverables by providing peer review of study level/program level deliveries for accuracy.
- Analyze post-production change Impacts and implements Migration/deployment activities.
- Streamlined team operations by planning daily tasks and managing workload distribution, resulting in improved efficiency and timely project completion.

DSGS Medidata Service Software Consultant, Dassault Systems, Medidata

May 2022 –Aug 2025

- Hands-on experience on Rave EDC.
- Responsible for designing, developing, implementing, and maintaining clinical database systems, providing ongoing support to ensure data integrity and operational efficiency.
- Develop, modify eCRF's, folders, matrices according to client requirements.
- Contribute to end-to-end clinical database setup and edit check programming, ensuring on-time delivery within project timelines.
- Develop, test, and document study configurations in alignment with study protocols and clinical data validation standards.
- Perform comprehensive Rave study build activities, including edit check programming, custom function specification, and study migrations to ensure database accuracy and compliance.
- Practical experience in secondary products like RTSM.
- To handle client requirements, communicate with the Data Manager and clients for smoother requirement understanding.
- Effective communicator with a proven ability to collaborate with cross-functional teams to deliver high- quality solutions within project timelines.
- Manage multiple studies of the client in parallel and keep track of the quality of the studies.

Senior Associate - Innodata India Private Limited

Jul 2021- May 2022

- To summarize the case history of patients for deep analysis of medical records.
- Created foot notes with definitions of uncommon medical terms.
- Create timelines and charts to highlight treatment from relevant periods of care and identify missing records.

SKILLS

- EDC Tools: Rave
- Lab administration
- Secondary Product : RTSM
- Custom function testing
- Custom Function logic specification
- Reporter
- Quick Publish
- RSB
- Microsoft Office
- Cloud Administration
- Trial Grid
- Basics of core configuration
- Amendment Manager

CERTIFICATION

- Best Practices Rave Lab Administration Certificate
- Rave Amendment Manager Upgrade - V.2019.07.19 Certificate
- Rave Amendment Manager Certificate
- Rave Configuration (Instructor-Led Training) Certificate
- SDBE - Data Managers (formerly RaveX) Certificate
- SDBE - Data Validations (formerly RaveX) Certificate
- TrialGrid Diagnostics Certificate

EDUCATION

B.Pharmacy, Bharati Vidyapeeth Collage of Pharmacy

2021 | Kolhapur, India

HSC, Vivekanand JR, Collage

2016 | Kolhapur, India

SSC, Vyankateshwara English School

2014 | Kabnoor, India

WORKSHOPS

- Completed bridge course in Pharmacovigilance in April 2021 conducted by OpEx India Accelerator.
- Completed bridge course in Clinical Research in May 2021 conducted by OpEx India Accelerator.

OTHER ACTIVITIES

- Co-ordinated and Volunteered various events in college as well as in the organization
- Attended various Camps of National Service Scheme (NSS).

DECLARATION

I hereby declare that all the facts given above are true and correct to the best of my knowledge.
